Farmers and Families First Statement on President Trump's Farm Bureau Speech

WASHINGTON, D.C. — Farmers and Families First President Dan Conston issued the following statement regarding President Trump's speech at the American Farm Bureau's Convention. President Trump signed multiple executive orders benefiting rural America, and announced that he supports passing a farm bill on time with crop insurance.

"Thank you President Trump for standing with American farmers and committing to delivering a farm bill on time with crop insurance. That kind of commitment makes clear that he understands what the stakes are for American farmers and has their back."

"Another major issue looming over American farmers' heads is the proposed Monsanto mega-merger. We urge President Trump's Administration to take a long hard look at the economic consequences of that deal for American farmers and the millions upon millions of families that consume American-grown food."
